## **CONVENIENCE AND STYLE ON TAP WITH ROHL'S POT FILLER SERIES**

*A1444 and A1445 Pot Fillers from the ROHL Country Kitchen Collection*

Serious chefs and amateur cooks alike appreciate the exceptional convenience of pot filler faucets, providing easy access to water at a vital kitchen location: the stove.

Before embarking on any serious kitchen renovation or new construction project, consider that pot fillers are more than just a luxury; they are vital when filling large stock pots for soups, pastas and vegetables. The added convenience allows the efficient cook to put more energy into the joy of cooking and entertaining, with weight-lifting remaining a sport for the gym.

The A1444 and A1445 get the job done in style; they provide a handsome design accent for any kitchen – from contemporary to traditional. Typically mounted above the stove or cooktop, ROHL's Pot Fillers have swivel spouts that reach out either 9" (A1444) or 11" (A1445). Both models are 5-1/4" tall.

True to their Italian manufacturing and heritage of unparalleled quality, each is crafted of solid brass and equipped with quarter-turn ceramic valves for long-term performance. Installation is made easy with standard 1/2" male NPT connections. Homeowners can select from five authentic ROHL finishes: polished chrome, polished nickel, satin nickel, Tuscan brass

(more)

or Inca brass. A coordinated collection of kitchen faucets, filtered water faucets, bar faucets and accessories from the ROHL Country Kitchen Collection completes the package.

ROHL is a leader in providing distinctive products for the kitchen and bath – creating the experience of authentic luxury for America's finest homes, resorts and hotels. It offers readily available inventory, technical training and a commitment to consistent customer service. Headquartered in Orange County, California, ROHL also has regional corporate offices in San Francisco, the New York Metro area and Milan. Products are available through independent, authorized kitchen and bath showrooms with builder upgrade programs.
